AMOUNT \$ \_\_\_\_\_

The business improvement area society purpose is to establish and maintain programmes dedicated to the development of business activity, promoting, and advocating the commercial interests and coordinating plans for improvement in the downtown core known as the ADBA Business Improvement area (Bylaw 1313-2004). The result of this mandate has provided an amazing and vibrant community to film.

Filming is understood to have a positive economic and social impact in our area however, this comes with active management requirements from our association staff. The Abbotsford Downtown Business Associations (ADBA) goal is to facilitate productions to the best of our ability in making it a positive experience for all involved. An ADBA Film Committee representing our businesses, monitors film processes and provide recommendations in improvements for film production companies and business owners. The vast knowledge of the dynamics of our businesses in the downtown core, historical knowledge of productions and first-hand neighbourhood information will affect production prep and will be a valuable resource contributing to your success. The Film Committee and the ADBA engage with all stakeholders to ensure filming success and work closely with the City of Abbotsford Economic Development team.
